DA DANGEROUS PHASE OF ECONOMIC SITUATION SHOWING

Washington Representative of National Grange Fears Crash as Result of Present Abnormal Conditions.

BY DAVID LAWRENCE.
(Special Correspondent of The News-Scimitar.)

WASHINGTON, Feb. 3.—An economic crash is coming as an inevitable result of the high cost of living, increased demand for more wages and less hours of labor, scarcity of farm labor and diminished production of foodstuffs. City officials here are more concerned than farmers. There is no "unrest" among the agricultural element of the United States, as the word was used in analyzing the 40,000 answers given last week to the questionnaire of the postoffice department of agriculture, but there is widespread dissatisfaction and growing distress over the vicious circle in which the economics of these reconstruction days is traveling. "Unrest" has been applied so often to the discontent of Bolsheviks and would-be destroyers of organized government that the word has been used to describe the more accurate phrase and that "unrest" comes, it will be said, as a consequence of rural conditions.

Clash Analyzed.

This does not mean that the Washington representative of the National Grange, and recently a member of President Wilson's first industrial peace conference, analyze the present clash of city and rural interests, and his explanation is the more interesting because he believes congress can present no cure, and because he doesn't blame the city workers for refusing to sell their services for less than he thinks he can get. He reveals incidentally a real fact, namely, that the United States has not assimilated its rural population and that hardly one percent of the boys who used to work on the farms before the war have gone back to the country.

How serious that is can readily be seen when it is realized that fully half of the membership of the American expeditionary forces, say nothing of the men who are in the camps in America, came from the farms.

"The questionnaire of the postoffice department," said Mr. Atkinson, who for 12 years was dean of the Agricultural college of West Virginia, "shows plainly how city people have been misled as to country conditions. I dislike the word 'unrest.' The farmers are simply distressed at their growing inability to cultivate the land and wonder what they want to do. The labor market is rapidly making it impossible for them to feed their families. The body is going to go hungry. Unrest may come as a consequence in the city. Farmers need help."

"The inability to obtain farm labor is the most serious thing. Before the war the farmer was his own boss and hired help in the country. Now, with the attractive wages in the city, the farmer doesn't want to come back to the country, and I don't blame them or anybody for staying in the city. If higher wages are obtainable there, but city

Gravel To Arkansas In Trainloads

The interest of the Frisco railroad in the improvement of the highway ways is so great that the higher officials are giving the matter of transportation of road-building materials their personal attention.

J. E. Hutchinson, of Springfield, Mo., general superintendent of the Frisco and Alexander Hutton, of St. Louis, freight traffic manager, were in conference with Robert E. Buchanan, division freight agent at Memphis, office in the Exchange building Tuesday, relative to working out plans for delivering gravel to road contractors in Arkansas in trainloads.

Highway improvements in Crittenden county have become so general that the delivery of materials in trainloads has become a practical proposition. Districts 7, 8 and 9 in Crittenden county have used 300,000 tons of gravel on 14 miles of highway. Six districts alone propose to spend \$6,000,000 on roads.

The Frisco officials were also in conference with a number of local gravel dealers here, and plans are under way which will provide the best possible transportation for road building materials and prevent the serious delay in the past have often handicapped the road contractors.

Say Distillers Are Tax-Dodgers

Postmaster Admits Changes Are Likely, But Does Not Absolutely Confirm News of His Own Resignation.

Changes in the personnel of post-office officials in Memphis are probable, according to Charles W. Metcalf, Jr., postmaster. His own resignation to re-engage in the insurance business will come within the next few weeks, Mr. Metcalf said Tuesday.

When asked for a confirmation of the report that he was to resign, Mr. Metcalf stated that he had been considering this, but would not hand in his resignation until spring as there are several very important matters which were now claiming his attention and he does not care to leave the service until these matters have progressed further.

The matters referred to are the enlargement of DeSoto station, which the department is considering doubling in size, and the change to government ownership of the present method of handling mails to and from depots and parcel post matter in the city.

Metcalf is the present postmaster for almost six years, and his present term will expire on September 1, 1922. He is a member of the insurance firm of Metcalf Bros., and will leave the postoffice in order to look after his interests with that firm. He stated that his connection with the postoffice department has been most agreeable, and he felt that on account of his increase in business of his firm, it was necessary to give it his personal attention.

When Mr. Metcalf resigns, his successor will be required to stand the civil service examination and it is likely that someone already in the postal service will receive the appointment, as postoffice experience will count very heavily in the examination. The successful applicant must be confirmed by the senate.

R. E. Walther, president, and William Knebelkamp, general manager of R. E. Walther & Co., Louisville, Ky., distillers, are out on \$2,000 bail awaiting a preliminary hearing on charges of trying to defraud the government of taxes on distilled spirits. They are charged by federal agents with removing 8,000 cases of bottled in bond whiskey tax paid at the rate of \$2.20 per case, and selling it as a beverage, which requires an additional tax of \$4.20 per gallon.

Physician Says President Must Not Make Trips.

WASHINGTON, Feb. 3.—President Wilson is not likely to leave Washington for some time, his physician, Rear Admiral Grayson, intimated today in discussing reports from various sections of the country concerning impending trips. With the president steadily improving, Dr. Grayson said he thought it would be unwise to chance his course.

Every possible precaution to prevent the president contracting influenza is being taken, Dr. Grayson said, no one showing any signs of a cold being allowed to enter the president's room.

The president's condition is being watched so closely that he is not permitted to venture below stairs out of his wheel chair.

TWO MORE U. S. AVIATORS HELD

American Flyers Land in Mexico and Word Is Awaited.

EL PASO, Tex., Feb. 3.—Word was awaited today concerning the fate of two American aviators who landed in Mexico last night. The aviators, who were captured by Mexican soldiers near Nogales, Sonora, Mexico, and taken to Nogales technically are held.

The Americans, on a flight from Fort Bliss to Nogales, Ariz., became lost yesterday and were held by Mexican soldiers. A forced landing, Maj. Gen. Robert L. Hood, commander of the El Paso district, said he anticipated no difficulty in obtaining the release of the aviators, although it is believed their detention was merely to get a formal statement from the Americans as to their cause.

Reports last night said the Americans were taken to the Grayson hotel, where it was said their machine was damaged in making the landing. Whether it can be repaired so as to make the return trip under its own power is questionable.

J. B. MCGINNIS NAMED ON TERMINAL BOARD

J. B. McGinnis was appointed Tuesday afternoon by Mayor Payne as a member of the municipal terminal commission. He will succeed Leslie M. Stratton, who resigned recently owing to pressure of private business.

Mr. McGinnis is an expert on traffic matters. He has been in charge for a number of years of the grain and hay department of the Memphis Merchants' exchange. He will assume his duties at once, and will be in charge of the terminal board.

The terminal board will have jurisdiction over the improvement of the municipal terminals and will soon let others to pressure of private business.

MOVIE CENSORS ARE NAMED BY MAYOR

The board of theatrical censors was named by Mayor Payne Tuesday at the meeting of the city commission. The members are John H. Dean, appointed as chairman, Mr. Samuel J. Ellis, secretary, and Percy N. Shivers, treasurer. Mayor Payne will use his personal influence to urge Mr. Dean to prevent the appointment and to serve during the remainder of this year at least. Mr. Dean was chairman of the board for several years, and made a reputation in that office. He did not wish the appointment and only a few days ago told Mayor Payne that he could not accept it, but the mayor hopes to persuade him to change that determination.

CLASH BLOCKADE MAY BE DECLARED BY ALLIED CHIEFS

PARIS, Feb. 3. (Havas).—The entente rejoiinder to the refusal of Holland to accede to the allied demand for the extradition of former Emperor William is imminent, according to the Petit Parisien.

The newspaper says while the note will be generally conciliatory toward Germany, it will consider, in case of a new refusal by Holland, measures going as far as the breaking of diplomatic relations or a naval blockade of Dutch ports.

The draft of the note to be sent to Germany with the list of persons whose extradition is to be demanded by the allies was approved by the council of ambassadors today. The note and the list will be handed at once to the German representatives here. It was decided by the council neither the note nor the list should be made public here.

The council also discussed the reply to Holland, and decided to send a note to Holland regarding the surrender of former Emperor William to the allies, which Holland refused in his recent answer to the allied demand. The terms of the proposed allied response were considered at length and will be further taken up at the next meeting of the council Friday. It is not expected, however, a decision will be reached that day as the different governments interested must be consulted.

The request of Poland for arms and supplies was under consideration for some time by the council. It was decided, however, whether help of this kind would be supplied to the Polish government.

At a meeting this morning of the French cabinet, presided over by President Poincaré, a decree was signed putting a new bread tariff into effect on March 1. Flour hereafter will be sold at 53 francs per 100 kilos and bran at 18 francs.

Cards giving the right to purchase 400 grammes of bread daily at the present price will be issued by the municipal authorities to the heads of families having at least two children more than 16 years of age, to widows with at least two children more than 16 years of age, to men wounded during the war and receiving pensions and to the extent of 50 per cent to aged persons, invalids and incurables.

ILL FORTUNE IN WAKE OF EACH ATTEMPT TO RECOVER LONG CONCEALED TREASURE

A story is being told by a lady who has resided in Memphis all her life of a hidden treasure in the back yard of her old home. The story is told as follows:

When a child of seven years I remember hearing our washwoman come in the house and say to my mother, "Miss Clemmies, there she is money buried in your back yard. My mother naturally told her to get it, but she was told by the negro that she would be called the spirits first and see what they said in a few days she again informed my mother that the spirits said it wasn't time to dig for the money and the negro tried to get it before the proper time. I luck would be visited upon the family.
